Description: The role of caregivers evolves throughout the caregiving journey and so should the services and the support they receive. The 'Caregiving Years' describes the path that caregivers take – from expectant caregiver, freshman caregiver, entrenched caregiver, pragmatic caregiver, transitioning caregiver, and finally to godspeed caregiver. Most importantly, these stages provide a map for caregivers and the health care professionals who they interact with to navigate successfully through the caregiving journey together.

Presented by: Denise Brown
Executive Director and Founder
The Center for Family Caregivers

Cost: Free

CE Credit: 2 credit hours for licensed social workers (LSW), licensed clinical social workers (LCSW), licensed professional counselors (LPC), licensed clinical professional counselors (LCPC) and certified case managers (CCM)
